Business Partner Proposal

Find a business looking for help with their website or digital marketing and start earning.

Contact: partner@oureffort.com | 99009 33557

Expectations from Our Business Partners

- **BECOME A PARTNER & START EARNING**

Your Job is just 2 tasks:

- **Task 1:** Find a Business that is looking for help with their **Website or Digital Marketing Services** to increase their customers.
- **Task 2:** Help us to close the deal and onboard your customer.
- **Rest all we do** right from pre-sales, analyzing business requirements, and proposals, executing all the project work/tasks, and sending work progress reports as needed and project support. So it would be **a win-win-win.**
- **Flexible Work:** Either work under oureffort brand (get the desired designation & the company's Email ID but, not on salary) or work fully independently. No targets, no work pressure, take things in to your hands at your own phase.
- **Scalable Project Execution:** With our network of skilled designers, developers, and technical partners (we are in a tie-up with a network of companies who share the work/resources), we expertly handle projects of all sizes, from budget-conscious startups to large-scale campaigns.
- **Mutual Growth & Rewards:** Build a sustainable income stream through competitive partner rewards and commissions based on successful project delivery.

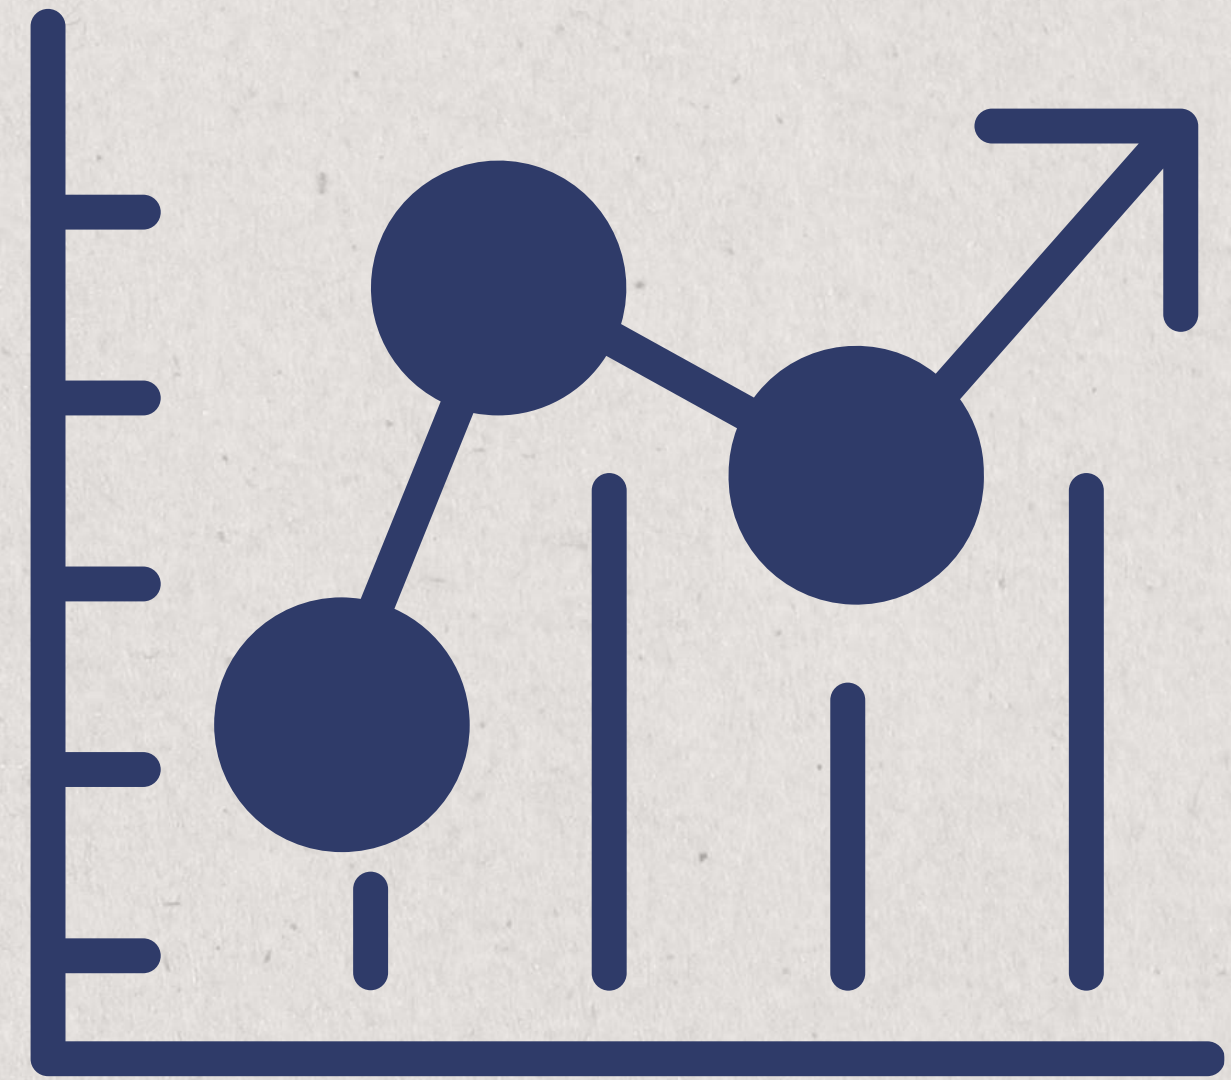

Maximize Your Income with Flexible Earning Options

- **Approach 1: Transparent Pricing:**

- Our fixed project fees based on workload ensure upfront clarity and flexibility in your pricing decisions.
- So, you set your margin over and above the work estimates proposal we prepare. And you get the amount you deserve.

- **Approach 2: You are the Boss:**

- **Unlock the potential for higher earnings:** You can propose adding your desired margin to our project estimates, increasing your overall income for each collaboration. You collect the payment and you pay us the proposed quote. In this case, we will never know or ask how much big you cut your slice for you.
- **Recurring revenue & long-term value:** Receive monthly retention bonuses for ongoing projects, creating a reliable income stream.

When You Get Paid Your Earnings?

- **No Waiting, you get paid on the same day we get payment from your customers.**
 - That's Right!, No waiting for month end or beginning. You get paid on the same day when we get payment from your customers.
- **When You are the Boss ?**
 - If you are working independently out side oureffort brand then you get payments much before you credit us.
 - You collect the payment and you pay us the proposed quote to kick start the project.
- **Mode of Payment: Online Bank Transfer OR through UPI Payment.**

As this is not a monthly salary job, you earn from every customer you find.
